

Ph.D & M.S. Scholarship
Electrical and Information Engineering (EIE) / Computer Science (CS) / IT Convergence (ITC)
Seoul National University of Science and Technology (SeoulTech), Seoul, South Korea

Ph.D & M.S. Scholarship Opportunity

Faculties in the Department of EIE / CS / ITC are looking for highly motivated full-time Ph.D & M.S. students interested in conducting cutting-edge research in telecommunications, wireless systems and device.

Description

The chosen Ph.D & M.S. candidates will be enrolled as full-time graduate students starting from **March 2018**.

- The position is fully funded including a tuition waiver and competitive monthly salary.
- The main research directions of the group are
 - [Subgroup 1]** Wireless Communications & Networking: wireless communications and computer networking including cellular networks, IoT communications, MIMO systems, multimedia services (VR/AR), etc.
 - [Subgroup 2]** Devices and Systems for Wireless Communications and Biomedical Applications: RF component & antenna design, RF/Analog/Biomedical/Power integrated circuit & system design.

Application Procedure

An interested applicant selects either subgroup (or both) based on his or her research plan and emails the scanned copy of the following to the corresponding contact point by **August 24, 2017**.

1. Detailed CV in English
2. Official transcripts of previously attended undergraduate & graduate institutions
3. Certificate of TOEFL/IELTS/TOEIC score if available
